TECHNICAL & INTERPERSONAL SKILLS

- Backend Technologies: Java, Spring, Spring Boot, Spring Data JPA, RESTful APIs, Hibernate
- Database: MySQL, PostgreSQL
- Cloud Technologies: AWS services
- Tools: Git, GitHub, Jira, Eclipse IDE, IntelliJ IDEA, Postman, MySQL Workbench
- Soft Skills: Problem-Solving, Communication, Team Collaboration, Adaptability, Time Management

EDUCATION

B. Tech. in Computer Science and Engineering

Vellore Institute of Technology, Bhopal

CGPA: 7.66 / 10

2021 – 2025

WORK EXPERIENCE

Java Developer

October 2025 – Present

ASK Innovations

- Developing backend functionalities for an **e-commerce application** using **Java, Spring Boot, and Hibernate**, ensuring scalable and efficient service design.
- Designed and implemented **RESTful APIs** for product, order, and user management with proper **validation, exception handling, and transaction management**.
- Integrated with **PostgreSQL database** and optimized queries to improve performance, ensuring seamless **data persistence and retrieval**.
- Collaborated in an **Agile team** with **code reviews, debugging, and testing**, following **best coding practices** to deliver robust production-ready solutions.
- Tech Stack:** Java | Spring Boot | Hibernate | REST APIs | PostgreSQL | Git | GitHub | Postman | IntelliJ IDEA

Java Intern

May 2025 – August 2025

Kodvix Technologies

- Worked for client **Max Life Insurance** in the **Term Insurance domain**, focusing on **Java backend development**. Enhanced **RESTful APIs** with **Spring Boot** and **Hibernate**, applied **validations**, resolved **edge cases**, and maintained reliability in a **microservices architecture**; deployed scalable solutions on **AWS (EC2, S3, Lambda)**.
- Designed **RESTful APIs** using **Java, Spring Boot, Hibernate, and MySQL**; deployed services on **AWS services** and contributed to **internal/demo projects** and assisted with small tasks on **live client applications**.
- Collaborated within an **Agile team**, contributing to **code reviews, debugging, and testing** while assisting in implementing **best practices**, improving code quality, and delivering robust, **production-ready solutions**.
- Tech Stack:** Java | Spring Boot | Hibernate | REST APIs | AWS | MySQL | Git | GitHub | Postman | IntelliJ IDEA

PERSONAL PROJECTS

• Online Job Portal for Freelancers and Job Seekers [GitHub](#)

- Engineered a **backend system** using **Java, Spring Boot, and Hibernate** with separate **modules** for **freelancers, job seekers, and recruiters** to administer **registration, profiles, and job postings**.
- Created **RESTful APIs** for **user registration, profile control, job posting, and job applications**.
- Used **Swagger** for clear **API documentation** and efficient **testing** during development.
- Implemented proper **exception handling** and **input validations** to ensure **stability and data integrity**.
- Technology:** Java | Spring Boot | REST APIs | Swagger | MySQL

CERTIFICATIONS

- Google Cloud Digital Leader Certificate ([View Certificate](#))
- Iamneo High Performance Coding(DSA Using Java) ([View Certificate](#))
